LAIRD & LEE'S

DIARY AND TIME-SAVER

REGISTERED U.S. PAT. OFF.

THE STANDARD YEAR-BOOK

MEDICAL AND SURGICAL HINTS.

By C. G. CAPRON, M. D.
Surgeon-in-Chief C. T. M. A. A of America.

1. **Procrastination** is the thief of time; when injured do not "take a chance." have advice at once. By so doing you may save much suffering and many dollars.

2. **For Sprains**—Irrigation, emersion, or pack in hot water, complete rest; after swelling and pain lessen apply antiphlogistine. When swelling is well reduced strap injured part with o. z. (zinc oxide) adhesive plaster.

3. **For Dog Bites**—Cauterize with strong nitric or carbolic acid. If these cannot be had use a live coal or red hot iron. Dress antiseptically.

4. **For Insect Stings** — Apply locally aromatic spirits of ammonia, strong solution baking soda, antiphlogistine.

5. **For Punctured Wounds** — Use a solution of bromine 1 to 50. Of this solution 1 teaspoonful to 2 ozs. of water, apply with wet dressing and keep it damp. Bichloride of mercury 1 to 5000 solution, dressing to be kept wet.

6. **For Hemorrhage Following Wounds**—Do the safe thing: constrict the circulation both above and below the wound.

7. When your **Hernia** comes down and you cannot reduce after trying for 10 minutes, a physician and a few whiffs of chloroform will do it for you.

8. **For Burns**—Home remedies are often most efficacious. First cover the burned area with sweet (table) oil, then apply plenty of baking soda and bandages. By the time the doctor arrives you may not need him.

9. **For Nose Bleed**—Ice to back of neck, snuff alum water, inhale spirits of camphor, plug nostrils with cotton saturated with diluted vinegar.

10. **For Fainting** — Fresh air, clothing loose, head low, give aromatic spirits of ammonia one-half to one teaspoonful in a swallow of water, also equal parts of whiskey and water.

11. **For Colic or Pain in Bowels**—Don't get "stage fright" about your appendix; take one or two tablespoonfuls of castor oil, followed by glass of hot water; repeat this dose in three or four hours if necessary. An occasional dose of this remedy "like mother used to give" may save your appendix from the hands of a surgeon.

12. **Remember** that **alcohol externally** is one of our best antiseptics. After scrubbing the hands, pour alcohol over them before you dress an open wound.

13. **Remember,** every "grip" should contain aromatic spirits of ammonia and a First Aid to the Injured package. They may be more essential than apparel.
